OUR MANUFACTURING

**BUILT IN AURORA, ONTARIO, TO PUT SUSTAINABLE PACKAGING
WITHIN REACH OF EVERY CUSTOMER, AT EVERY SCALE.**

1 Billion+

Cups & bowls
produced per
year

Made in Canada.
Raw material sourced
outside duty-affected
countries

40+
JOBS

at full
operation

\$1.5M

Government
of Ontario
investment

100% Automated
forming to casing
- zero manual
touchpoints

BRCGS & SQF.
Standards our
facility operates to

Our Aurora, Ontario facility is where our sustainability promise becomes a physical product. It's a fully automated, state-of-the-art converting operation — built to produce more than 1 billion paper cups and bowls a year, all from raw material sourced outside countries subject to trade duties.

From the moment a paper roll enters the line, forming, packing, casing and conveyor handling all run without a single manual touchpoint — through to the sealed case ready for shipment. The facility already operates to BRCGS and SQF standards, the two food-safety certifications operators ask for most.

Growth here creates real jobs, not just output: the completed facility is expected to employ more than 40 people, backed by a \$1.5 million investment from the Government of Ontario. And because we run the line ourselves, we can bring in dedicated equipment for a custom program and print your brand in-house on our eight-colour press — turning a trial into a full order fast.

OUR PROMISE

HELPING TO PROTECT OUR PLANET BY CREATING AND PROVIDING SUSTAINABLE PRODUCTS AND SOLUTIONS.

In 2004, Eco Guardian was founded with a simple yet powerful question: **How can we help reduce the number of single-use plastic bags?** This question, posed by our Founder & CEO, Anil Abrol, led to the creation of our first product line—reusable bags. Each bag we sold had the potential to replace thousands of plastic bags, and over the years, we witnessed a significant shift in the industry towards reusable options.

Building on this success, we embraced the belief that **“traditional thinking” can change**. If society can adopt more sustainable options for bags, why not for other products as well? Recognizing the immense waste generated by single-use food service items used daily worldwide, we sought better alternatives. This drive led us to develop a variety of sustainable products.

Together, we can create a more sustainable world, one product at a time. We are committed to:

Reducing Single-Use Plastics:

By offering reusable and eco-friendly alternatives to everyday products.

Promoting Sustainable Practices:

Encouraging individuals and businesses to adopt more sustainable habits.

Innovating for a Greener Future:

Developing new products that help minimize environmental footprints.

Educating and Inspiring Change:

Raising awareness about the importance of sustainability and the impact of our choices.

CONSISTENT QUALITY, THE FIRST TIME AND EVERYTIME.

WHO WE ARE

We're a Canadian Company that cares about the planet, and your business. We've built our manufacturing and supply chain strategically and sustainably to serve you better. Stocking over **150 environmentally friendly products** made from rapidly renewable resources, offering superior strength and durability. We prioritize sustainability by **manufacturing our products close to our raw materials**, minimizing our environmental impact.

Canada is moving toward a circular economy for plastics by pursuing zero plastic waste. Our team continuously researches trends and new technologies to add more innovative, sustainable products and practices to our business—and yours.

WHO DO WE SERVE

WE PROVIDE ECO-FRIENDLY FOOD SERVICE AND PACKAGING PRODUCTS

Healthcare Facilities, Food Processing Industry, Restaurants and Foodservice, Regional and National Grocery Store Chains, Retailers Large & Small, National Wholesale Clubs, Regional and National Distributors.

THE ADVANTAGE OF BEING OUR PARTNER

- Flexibility, with the ability to contribute additional insight into your needs that sets you up for success.
- Working together to create the right sustainable package for you.
- Partnerships can only be built on trust, so we work hard to gain your trust for a strong relationship.

QUALITY & INNOVATION

Eco Guardian is dedicated to providing solutions for your compostable needs. Unlike other companies that may offer an eco-friendly product line alongside traditional plastic and foam products, **compostable solutions are our core focus**. We've tested hundreds of traditional products and developed compostable solutions that meet or exceed the industry standards for strength, durability and sustainability.

Our deep understanding of the market allows us to continually innovate and remain agile. We offer **custom printing and embossing on our stock and non-stock items**. Branded food service products help to create and reinforce a stylish image which helps with positioning your brand in your customer's minds.

Retail Products

Flexibility in retail pack quantities and design, private options available. All our products are retail ready.

Trusted Products & Suppliers

Complete line of household paper & single-use sustainable products for every food service program category, with applicable certifications – a true sustainability partner.

Custom Printing & Products

Excellent brand proposition with customization abilities from custom product development to printing/embossing.

Tested Brand Comparisons

Tests reveal that Eco Guardian products perform equally well against its branded counterparts.

Ease of Ordering

Our teams operate in multiple countries and timezones. Send your order anytime day or night and we'll start processing it.

CUSTOM PRODUCTS

CREATE IMPRESSIVE PRODUCTS THAT ARE EXCLUSIVE TO YOUR BRAND

We help you discover your vision with our custom design process.

Foodservice operators, restaurant owners and managers, caterers, grocery and hospitality venue operators can either **create new variations of our existing products** or work with us to create sustainable products not available from any other company using several customization methods.

CUSTOM PRINTING

STAY AHEAD OF YOUR COMPETITION WITH CUSTOM PRINTING AND EMBOSSING.

Custom printing is the perfect solution to help you connect with your customers. We offer custom printing and embossing on our stock and non-stock items. Branded food service products help to create and reinforce a stylish image which helps with positioning your brand in your customer's minds.

Not sure how to translate your brand into a design? We can help you to develop the right look and feel for your customized printing. Whether you're seeking a complex design, or a minimalistic look, we can help you get there. Our designers keep the artwork looking sharp – while conveying your brands values.
